skincare products for purchase.

Dear Guests,

Millions of years ago, the sea receded from the area now known as the Polish Jura. Traces of its presence can still be found in the form of rocky outcrops and ammonite fossils. Today, the fertile, limestone-rich land surrounding our hotel blooms with Jura sensory meadows and is home to our vineyard.

Our dream was to create a SPA that would harness the power of the local nature to support deep regeneration. We wanted our treatments to be coherent and modern, inspired by holistic renewal and enriched with the gifts of herbalism, aromatherapy, grapevines, and advanced skincare from the world's finest brands.

We invite you,
The SPA 511 Team
